SUMMARY

Full Stack Developer with a Bachelor's degree in Computer Technology, passionate about creating intuitive and responsive websites and web applications. Actively seeking internships or entry-level opportunities to apply full stack skills and build engaging digital experiences.

EDUCATION

Higher Institute of Technological Studies

Bachelors in computer technology, Junior Full-Stack Developer

Mahdia, Tunisia

Sep 2022 – June 2025

EXPERIENCE

Full Stack Developer Intern

January 2025 – June 2025

SeekMake - Consumer Services

Tunis, Tunisia

- Designed and built the Community-Feed feature to connect clients and manufacturers using Angular and NestJS within a scalable microservices architecture.
- Defined and implemented the underlying infrastructure and data flow to support real-time interactions and modular service communication.
- Optimized performance for large-scale user data display and interaction by implementing unit and integration tests, ensuring a stable and scalable application.

Full Stack Developer Intern

June 2024 - August 2024

Digi Growing - IT Services and IT Consulting

Mahdia, Tunisia

- Designed an admin dashboard that improved reporting efficiency through detailed attendance analytics, while handling both front-end and back-end development.
- Used React for the front end, Node.js with Express for the back end, MUI Core for a responsive user interface, and Nivo for advanced data visualizations such as line and pie charts.

PROJECTS

Calorie Tracker | Node.js, Express, Firebase

2024

- Developed backend services for a system managing calorie intake and nutritional data.
- Implemented secure authentication, real-time data sync, and structured storage using Firebase and Firestore.
- Integrated external APIs to retrieve food nutrition details and support barcode-based food identification.

E-commerce Website | React, MongoDB, Express.js

2024

- Developed a fully functional e-commerce website using React for the front end and MongoDB, Express.js, and Node.js for the back end.
- Implemented features to enhance user experience with a clean and intuitive design.
- Ensured smooth interaction and high user satisfaction through optimized UI/UX elements.

Speed Connection | React, JavaScript, PHP

2023

- Developed a full-stack web tool to measure internet speed and provide custom recommendations using React and PHP.
- Integrated RESTful APIs for real-time connection data and performance analysis.
- Focused on responsive design and smooth UX during my internship at Tunisie Telecom (TT).

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, PHP, Python, SQL

Frameworks: Angular, Node.js, Express.js, NestJS, Spring Boot

Libraries & UI Components: React, Bootstrap, Foundation, MUI Core, Nivo, Three.js

Databases: Firebase, MongoDB, MySQL

Tools & Platforms: Azure, WordPress, Git, VS Code, Postman, XAMPP, Figma, Adobe XD, Adobe Illustrator
